

COMMERCIAL FUEL PUMPS

ZEON, ALPHA AND C SERIES

The Triscan Group are pleased to offer a wide range of reliable and efficient fuel pumps, specifically designed to withstand heavy usage in the commercial transport industry.

Benefits

- ATEX for diesel and ATEX for petrol approved options available
- Accurate to at least +/- 0.25% (commercial) and +/- 0.20% (W&M)
- Flow rates 50-180 L/MIN
- Stainless steel construction
- 3.3m hose (supplied as standard) with high flow/slimline nozzle

"I have been extremely happy from start to finish with the support offered by Triscan and the engineering team. It was a difficult install as we have old pumps, but your team liaised with various other companies to ensure you could meet our requirement and your engineers demonstrated fantastic skills in sorting the problem."

QINETIQ

Zeon

Key specs
